†Original notice of the Question was received in Hindi.

COMMUNICATIONS AND INFORMATION TECHNOLOGY (SHRI TAPAN SIKDAR): (a) Yes, Sir.

(b) Telecom Regulatory Authority of India (TRAI) gave their recommendations on opening up of Internet Telephony to the Government on 20th February, 2002. Comments were invited from all interested parties on the recommendations of TRAI by putting the recommendations on the website of the Ministry. Guidelines for offering Internet Services were issued on 21st March, 2002.

Comments received on the recommendations of TRAI on opening up of Internet Telephony broadly were in two categories. While majority of the comments received were for accepting TRAI's recommendations, the other comments received were broadly on the following points:—

(i) Definition of Internet Telephony Service as application service is not correct;

(ii) Accepting TRAI recommendations will disturb the level playing field conditions between Internet Service Providers (ISPs) and other Telecom Service Providers, as ISPs are lightly regulated when compared to other Telecom service providers.

(iii) Proper tariff balancing should be done.
